

BOLT SNAPS TREE AS DROUGHT ENDS

On Monday the long delayed fall rains came, in meager quantities at first, breaking the long dry spell in this and other areas, which has been labeled a drought by the U. S. weather bureau. The last real rain fell on Aug. 21, when 1.04 inches was recorded. The months of September and October were practically without moisture, adding considerably to the fire hazard, and necessitating unusual care in starting fires. During this dry period the volunteer fire departments of this area were called out a record number of times.

Last Sunday a record high of 73 degrees was reached, followed on Monday with another record breaking temperature for the day, but the rains have come at last. The electrical storm that broke the backbone of the months long drought Monday morning was accompanied by high winds. A loud clap of thunder startled residents about 8 o'clock, and later it was discovered that that lightning bolt had struck a tree on the south side of the Mokena public school ripping the top right off.

According to record keeper Robert Lauzenhiser of the Weather Bureau, during such dry spells as have recently been experienced not only here but throughout the entire Midwest, the ground becomes increasingly drier and produces less evaporation of moisture. With less moisture going off into the air, the possibility of rain becomes less likely, thus establishing a vicious circle. This vicious circle has now been broken.

Welby Dahlman Dies Of Heart Attack

Welby Erick Dahlman, 29, died last Saturday at his home in New Lenox, of a heart attack. He had lived in New Lenox since 1925, having attended grade school there, after which he studied at Joliet Junior college.

Mr. Dahlman has been employed by the Wabash railroad at Bridgeport since 1946, as telegrapher. He served in the navy during World War II as a third class yeoman aboard a tanker in the South Pacific. He was adjutant of the Harry E. Anderson Post of the VFW in New Lenox, who had charge of the services at the grave. Four veterans were in the firing squad: Harold Rieter, David Bruns, Robert Wysock and Jack Batson. Ronald Whitaker and Eugene Hunt also assisted in the VFW services.

Just two days before his fatal heart attack, Mr. Dahlman had visited his aunt Hilda Dahlman in a Chicago hospital.

Mr. Dahlman, who is unmarried, is survived by his mother, Mrs. Gladys Wondrasek, of New Lenox, his grandmother, Mrs. Leona Gallagher, of Billings, Mont., and his aunt Hilda, and uncle Henning Dahlman, of Chicago. He was the son of the late Verner Dahlman, of New Lenox, who died several years ago.

Funeral services were held Monday at the Sonntag funeral home, with the Rev. George M. Gustafson of the Bethlehem Lutheran church of Joliet officiating. Burial was at Maplewood cemetery in New Lenox.

Mokena PTA to Show Do's, Don'ts Films

"Helping the Child to Accept the Do's," and "Helping the Child to Face the Don'ts" are the films to be shown Tuesday evening, November 25 at the Mokena PTA.

Helping the child to accept the Do's portrays the child learning to live in a world defined by personality is influenced by the Do's, and explains how his extent to which the Do's are accepted. The film illustrates, with life situations, the types of Do's the child must learn to accept.

A social hour will conclude the meeting with the mothers of the 5th graders as hostesses. Mrs. Herman Lorenz is chairman.

Water Extension Program Defeated At Polls, 6 to 1

Mokena turned out en masse last Saturday to vote on the village water question, repairing and extending of water mains. The day was sunny, warm and beautiful—a remarkable day for mid-November, offering no excuse, on that score, for remaining away from the polls.

It is estimated that there are somewhere around 600 voters within the village limits, and 468 voted last Saturday. On the \$60,000 water revenue bond issue there were 395 No's and 66 Yes. On the general obligation waterworks improvement bonds for \$65,000 there were 393 No's and 68 Yes, indicating that both propositions were defeated by a ratio of 6 to 1.

There were 7 spoiled ballots, all of which were NO ballots. Some of these were rejected because the voter had marked a big cross over the word NO, instead of marking an X in the blank square, as required by law. Some wrote the word NO in the blank square, whereas the law specifically states that an X must be marked in the blank square opposite the name or measure for which the person is voting, and no other mark can be accepted.

One ballot was marked with a "check mark" instead of an X and therefore according to law had to be cast out.

If this election had been close these seven spoiled ballots could have been a determining factor, and might have swung the election the other way, indicating how important it is for voters to mark their ballots carefully, and exactly as prescribed by law.

The water program issues have been defeated, and for the present Mokena has been saved from being saddled with a \$125,000 debt with \$76,000 in interest charges extending over 20 and 30 years. The citizens, almost as a whole, are hoping that the village board will take steps at once to increase the present water rates with a view to building up a surplus wherewith to take care of improvements and necessary repairs as they are needed, without incurring a huge debt.

An interesting sidelight on the election was furnished by six fire sirens, which sounded at five times at 2 a.m. Saturday. About 30 volunteer firemen jumped into their village hall, only to discover that it was a false alarm. One facetiously remarked that it was the pre-election high tension vibrations which set off the alarm. Others thought it might have been the work of a group of mischievous boys, or maybe some overgrown prankster, but, at any rate, it wasn't considered funny by those who had responded to this early morning call.

Spark! Laundry to Hold Grand Opening Sat. in Oak Lawn

Spark! Laundry will hold the grand opening of its new modern \$110,000 laundry plant Saturday, at 5114 W. 95th St. Oak Lawn.

To spark the grand opening will be clowns, beautiful models and local leaders in politics. Ornaments will be presented to the ladies, and there will be candy balloons, free gifts a n d cokes. Festivities will last from 6 to 10 p.m.

The new laundry features same day service, and is said to be the first new plant for that purpose erected in the Chicago area for 20 years. The entire plant may be seen from any portion of the building.

The "Spark! Method" of laundering, which the new plant features, will permit of handling being processed in three to four hours.

Damp wash, wash 'n dry, quality shirt service and 90 per cent ready to use service are among the complete laundry services offered. A new type of shirt ironer, electronically and air operated, turns out 50 quality ironed shirts every hour, and is capable of speeding up the process to 75 shirts per hour under pressure.

Twenty four self-service washers are available, capable of washing more than 500 pounds of clothes per hour. Ironers will handle 100 pounds per hour and 175 pounds at full speed.

Unusual parking facilities make the Spark! Laundry easily accessible to patrons. There are parking lots on both sides of the building, making the plant accessible from both the east and the west, as well as from side streets running north and south. There is a two-way drive-in at the front.

The building is especially favorable for laundering purposes, a regular flow of fresh air being admitted by a new type of skylights which cover more than 700 square feet. The windows contain a new type of glass which filters out the heat rays of the sun and permits only light to enter.

Let Us Be Thankful, Too!

THANKSGIVING 1952

In 1621 the Pilgrim Fathers set aside a day of thanksgiving for blessings received.

Looking back at the bleak days the Pilgrims had endured, we might wonder what they had to be thankful for. They had landed on their "stern and rock-bound coast" the previous December, and had lived through a winter that carried nearly half their number to the graveyard. They had raised a crop so meager that they had to ration supplies. They existed on the fringe of an untamed continent inhabited by savages.

Well, why did they give thanks? The only reasonable answer is that they had a prospect of living through another year in the freedom for which they had left Europe.

We still have that freedom. Let's be thankful for it, and guard it well.

Under The Cross Of Malta

Now that the elections are over, which as we all know reveals the American people, Republicans and Democrats alike have closed ranks giving their united support to everything for which the American flag stands for. That's the American Way, and let no would-be aggressor make the mistake of believing that our political disunity, prior to Nov. 4th, adds up to anything but the kind of Democracy American citizens will all their lives. The Veterans of Foreign Wars and all other Veterans organizations are living symbols of the readiness of the American people to die, if necessary, in defense of the right to govern ourselves. We are giving renewed strength to the bonds that make America "one Nation indivisible."

Fred Thiel Dies In Sleep After Return From Hospital

Fred Thiel passed away quietly in his sleep in his son's home in Mokena, Sunday night, following a short illness. He had returned home from Silver Cross hospital Saturday, where he had been a patient for four days.

Mr. Thiel had been very anxiously to regain his strength sufficiently to enable him to vote in the national election November 4, which he did.

Mr. Thiel was born in Germany December 27, 1869, the youngest of a family of seven. On April 19, 1897, he was married to Miss Augusta Schreiber, two children were born to the couple in Germany, a daughter and a son Ludwig.

Mr. Thiel was a wood pattern maker by trade, and for 25 years was foreman of the wood pattern shop of a large steel mill in Germany. He was engaged in this work until the Poles came in during World War I, and took over that section. German workers were replaced with Polish workers, and during this time the Thiel's lost everything they possessed, including their home. Mr. Thiel was past 50 years of age when all these terrible things happened, and it was difficult to find work over there.

In 1923 he came to this country. When Mr. and Mrs. Thiel and their daughter came to America in 1923 they made their home in Evanston where he worked as a pattern maker. Their daughter died in 1927 while living in Evanston, and because of his wife's failing health the Thiel's moved to Mokena in 1937, and made their home with their son Ludwig, who had established himself in America before his parents. In 1942 Mrs. Thiel died.

Surviving Mr. Thiel besides his son are two grandchildren, Ursula, a student at DeKalb teacher's college and Gunther Thiel located at Ft. Belvoir, Va.

Funeral services were held Wednesday afternoon in St. John's Evangelical church in Mokena, with Rev. William Reimann officiating. Burial was in Memorial Park in Evanston.

Drama Club Comes Forward With An Unusual Program

The Methodist Drama club of New Lenox entertained their guests last Saturday night with an unusual program. Mary Greenman started with her laughable characterization in a new monologue "Matilda's Driving Lesson."

Before presenting a one act play Betty Morrison had the curtains opened to show a preview of what goes on behind stage before a performance. She explained the importance of the duties of those who work behind scenes, the properties, lights, off stage noises. She then demonstrated the importance of make-up by successfully using it to create an illusion of age on one of her fellow club members.

Lucille Tovrog, prompter for the group, introduced the play, "Smokescreen," and the participating players: Jane Schlotter, Ralph Miller and Lewis Loebe. The play was well received by the audience.

Lois Loebe, play director, was introduced and announced the tryouts for the next play will be held at the Methodist church Friday, Nov. 21, 7:30. Anyone interested in any part of putting on plays will be welcome to come and get acquainted at this meeting.—Jane Anderson, Sec.

Carpentier Wins Over Barrett as State Secretary

The tight race between state senator Charles F. Carpentier, Republican, and Edward J. Barrett, Democratic incumbent, for secretary of the state of Illinois, has finally been decided, in favor of Carpentier. For a long time the results of the November 4th election, with regard to Carpentier and Barrett, were in doubt, the race having been so close, first one leading and then trailing.

Election canvass figures for Cook county suburbs under the jurisdiction of County Clerk Richard Daley increased Carpentier's lead. The suburbs were the last to report their final figures in the close race. Final figures showed Carpentier the winner by more than 9,000 votes.

Now is the Time To Buy and Use Christmas Seals

This year's Christmas Seal sale, for the support of the activities of the Will County Tuberculosis association, began Monday with the mailing of Christmas seals to nearly every house holder in the county.

Most of us know that, in purchasing Christmas Seals, we are not just buying pretty decorations for our holiday cards and packages. We know that we are contributing to the support of a community organization which is dedicated to fighting a communicable disease, tuberculosis. But do we know exactly how our Christmas Seal money is working for us?

Christmas Seal money is used in the search for unknown tuberculosis, in the conduct of x-ray programs among apparently healthy people to find tuberculosis in its early, symptomless stage when it is easiest to cure. It is used to promote rehabilitation services for patients. Christmas Seal money works for us, too, through medical research on tuberculosis, studies which will enable us to gain a better understanding of the nature of this disease and, consequently, how to conquer it completely.

Our tuberculosis association is conducting a program of which we can be proud. Christmas presents us with an opportunity to show our appreciation of the work it has done, of the work it will continue to do so long as we stand back of it.

Now is the time to say "Thank you—keep it up." Now is the time to buy and use Christmas Seals.

MARLEY

Mrs. Virginia Sass
New Lenox 3133

To Our Marley Friends:

We appreciate more than words can say your kind and generous expressions of farewell. We thank you all from grateful hearts and thank Him for giving us these years with you. May God's richest blessing rest upon each of you. —Rev. and Mrs. William A. Bingham and family.

The Marley Woman's club met last Thursday afternoon at the home of Mrs. John Riley with Mrs. Royal Corp assisting, with Mrs. Robert Sproat, president, in charge.

Plans were made for the Christmas dinner party to be held on the regular club day at the home of Mrs. Glenn Smith with Mrs. William Haskins assisting. A planned potluck dinner will be served at noon.

Members are to write a poem which they must read before receiving their gifts from their secret pals. A committee of Mrs. Charles Ingram, Mrs. Clayton Cleveland and Mrs. John Hasbar were appointed to send gifts to the patients at the Will County TB Sanitarium. The program was presented by Mrs. William Bingham. Mrs. Loren Sass gave an article, "The American Way of Life." Mrs. Everett Bell presented "Thanksgiving Day in 1730." A parcel post sale was held after the meeting.

Approximately eighty members of the church and close friends of the honored guests were present. A bountiful dinner was served buffet style. The guests were seated at long tables appointed with Thanksgiving motifs. Following the dinner James Tilsy presented Rev. and Mrs. Bingham with a purse of

money from the Marley community. The afternoon was spent informally. Those who came from a distance were Mr. and Mrs. Edward Stevens of Chicago and Mr. and Mrs. Julian Gorham of Harvey.

Rev. and Mrs. Bingham and children left Tuesday for Tecumseh, Neb., where Rev. Bingham will be the pastor of the Baptist church.

Thanking God

Lesson for November 23, 1952

IT IS hard to imagine Jesus observing exactly one day in the year, no more, as a Thanksgiving day. This is not to say that the idea of a Thanksgiving Day is a bad one. The Jews of ancient times, whose religious observances Jesus closely kept, had a whole week of celebrations in the fall, corresponding somewhat to our Thanksgiving day. But Jesus' heart of gratitude was not to be limited by the calendar.

Mistakes About Thanksgiving

There are at least three mistakes which are commonly made with reference to Thanksgiving day. We Christian people make the mistake of limiting our thoughts of gratitude to one day. We count our blessings on this one day of all the year; we go on a kind of "binge" of gratitude.

Another sort of mistake, made by a great many, even of those who are called Christians, is to use the day for purposes that have nothing at all to do with it. Instead of worshipful gratitude to God for his blessings of the year past, the day is commonly used by many for eating too much or for getting drunk at football games.

Retail stores use the day to usher in the Christmas season. In fact, not so many years ago the commercial interests of the country were successful in pushing the day back a whole week just in order to have a longer season in which to sell "Christmas" merchandise.

But the purpose of the day is not to make money or to win football games or to get stuffed with turkey.

Grace Before Shakespeare

A third mistake is to be thankful for only one kind of thing: namely, material blessings such as food, security, good crops and good business. Now our Lord was grateful for such things. More than once we

read of his taking bread and giving thanks for it. But as he knew that man does not live by bread alone, so man should not give thanks for bread alone. Most of Jesus' prayers of thanksgiving are for other and higher blessings.

Some well-known writer once commented on our custom of saying "Grace before meat"—the old expression for what is now often called "asking the blessing" at the table. Has God no other blessings for us?

When a person sits down with a great play (say by Shakespeare) in his hand, why not a "Grace before Shakespeare?" How many of us have a little prayer of thanksgiving before reading a book of poetry or going out to look up at the starry sky on a clear night, or before opening a letter from an old friend or before going to the hospital or the dentist? (Yes, indeed; the dentist may not seem like a blessing, but try to stand a toothache all by yourself, or try to imagine going to his office, or to the hospital, before the days of modern medicine, surgery, X-rays, anesthetics and sanitation!)

Blessings of the Spirit

Jesus' prayer of thanksgiving, which our lesson Scripture records, however, is on a higher plane still. The particular blessing for which he thanks the Lord of heaven and earth is in the first place a spiritual one, and in the second place it is not something that came to him but to some one else. He thanks God that a spiritual light has been seen by his most humble friends.

Can we say that many of our prayers are on this high level? Many of us never get beyond the "Gimme" stage. And even among those who do rise to the level of real thanksgiving, it is rare enough to find those who are grateful not only for their own blessings but for those received by others; and how seldom does God hear any note of praise for blessings of the spirit!

This is a high plane, to be reached only by high souls, those who have been intimate enough with Christ to absorb his spirit and attitude. Stupid people, who do not have very good minds, cannot be expected to appreciate blessings of the mind; and people with small and wizened souls cannot feel blessings of the spirit. And only those who practice the Golden Rule every day, so as to put themselves into others' places, and who cultivate the gift of sympathy so as to "rejoice with those that rejoice and weep with those that weep," can have the heart to be thankful when others receive the highest blessings of heaven.

Bremen Hi PTA Has Panel Discussion

Professional and lay members of the PTA of Bremen Community High School expressed their opinions of what should be taught in the new school, in a panel discussion held Wednesday night, November 12.

Members of the panel were Helen Sandridge, teacher from the Tinley Park school, Harry Powers, Oak Forest agriculturist, Mrs. Donald A. Washburn

housewife and former social worker from Homewood, Jake Hill of Forest Ridge, and Bernard Krygowski of Posen.

The pros and cons for federal aid to education were presented by Superintendent T. R. Birkhead. This question will be voted on by the membership at the next regular meeting.

Several selections on the accordion were given by Judy

Manter of Forest Ridge, and refreshments were served by hostesses from Forest Ridge.

From where I sit ... by Joe Marsh

Going ... Going ...
Almost Gone

Granny Robinson put on quite a show the other night at the annual White Elephant auction held at the Women's Club.

Towards the end of the evening, she had the ladies battling for anything she put up. "What am I bid for this woman's lovely black coat here—good as new? Who'll say ten dollars?" she asked.

Granny held the coat up, and commenced describing the coat's lining, sleeves, buttons—really "selling hard." Then, suddenly, she took a close look and blurted out "Land sakes, no more bidding

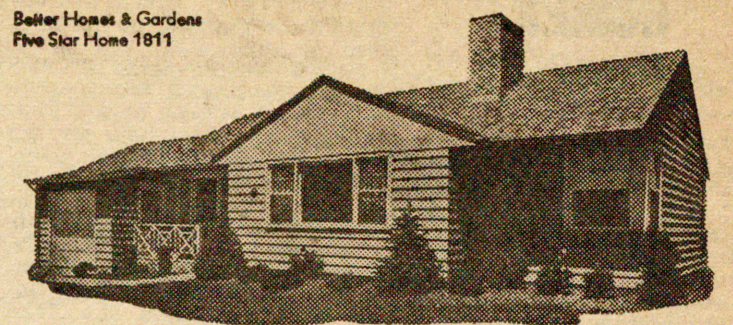

please—this is my own coat!"

From where I sit, what almost happened to Granny was good for a laugh, but sometimes when people "get carried away" with their own talk it's not so funny. I prefer a glass of temperate beer while listening to my favorite radio program—you may like soda pop or cider. I suggest we hold on to our personal opinions—and believe in them—but take a good close look at them before we try to "sell" them to our neighbor!

"I Thought the Gas Gauge was broken"

says Sam Pearce, Seattle, Wash. "If you want pickup, there isn't a car on the road, in any price class, that can beat the Rambler. Yet for economy, the gas gauge goes down so slowly you think it's broken."

IT'S TRUE. Nash Rambler owners are amazed at the sensational mileage they get. This is the car that holds the all-time record in the Mobilgas Economy Run with 31.05 miles per gallon! This in a real "red-hot" performer with so much room inside! This in such a smart and beautifully equipped car—the only car that comes to you with its many custom accessories at no extra cost!

Come see it. Especially, come drive it. Just take five minutes to discover something absolutely new in handling and parking ease . . . and new in performance, too!

Don't Resharpen Plowshares

USE **OLIVER Raydex**
BOTTOMS!

Raydex—the plow bottom with the low-price share—is made
and sold exclusively by Oliver.

Raydex shares come in packages of six... are so inexpen-
sive you can throw them away when dull. A Raydex share
costs no more than a single resharpening job
on an ordinary share.

Make your next plow an Oliver Raydex-
equipped plow. Farmers everywhere have
found that a Raydex bottom is lighter in
draft, scours better, covers better, pulverizes
the soil more thoroughly than any other bot-
tom under similar conditions.

Under-the-Stairs Closet

THE wise use of waste space is the sign of an efficient home craftsman. Whether it's a basement corner, an offset in a room, or the space under a stairway, it's best to enclose it and make it dustproof and functional. Until the closet shown in the illustration was installed, the space under the stairway was a catch-all that was

untidy and a probable fire hazard. Its neat appearance now invites orderliness.

Creating such a closet is a rather simple operation with a modern building material like Masonite Presdwood. Panels of this material, one-quarter inch thick and four feet wide, go into place rapidly. They are nailed to a framework of lumber. The panels, lumber, nails and other materials needed are available at lumber yards.

With the Presdwood, the home craftsman can make a permanent, good appearing installation at a minimum of cost. Even the door can be built on the scene, using lumber framing and Tempered Presdwood for a durable wearing surface. Many leading manufacturers of flush panel doors are using these materials.

When there's home remodeling and partitioning, the wise craftsman today combines lumber and Masonite Presdwood for the best results and economy.

These panels take a beautiful paint finish, which may be applied either with a brush or roller. An undercoat and two finish coats are recommended.

Dash and distinction are combined in the flowing lines of the Cranbrook Club Coupe, one of nine outstanding body styles in the new 1953 line of fine Plymouth cars. The new styling is combined with increased power and improved performance to make it more than ever the big car value in the low-priced field. Power has been increased to 100 horsepower with 7.1 to 1 compression ratio for finer response and efficiency. New suspension gives virtually gyroscopic stability under varying road conditions. Do Not Expect the Impossible of the New Administration

by L. H. Simerl,
U. of Ill. College of Agriculture

The White House will have a Republican tenant for the next four years. What does this mean for the business side of farming?

The change of tenants in the White House is no assurance of either prosperity or depression for farmers or others.

Farm income in the future, as in the past, will depend largely upon the maintenance of high-level employment in industry and commerce. Present farm legislation and programs can provide only moderate support for prices of a relatively few important farm products. Consumer buying power is the only important presently available support for prices of meat animals, milk, chickens, eggs, and most fruits and vegetables.

No drastic change seen. Congress is not likely to break out with any drastic new farm or other economic legislation. There were relatively few changes in the House of Representatives and even less in the senate. Furthermore, economic conditions and policies were not the major issue in the election.

Since World War II our economic policies have had two different major goals. These were at first full employment, and later, control of inflation.

The President-elect has indicated that he would support vigorous programs to reach both goals. Concerning the problem of unemployment he said, "Never again shall we allow a depression in the United States. If

the finest brains, the finest hearts that we can mobilize in Washington can force the signs of any recession, any depression that would put honest, hard working men and women out of work, the full power of private industry, of municipal government, of state governments, of the federal government, will be mobilized to see that it does not happen."

Can these goals be reached? Whether our nation can have continued full employment with out perennial inflation remains to be seen. Certainly no such conditions have been maintained in any industrialized country during the past 30 years.

During the seven years since the end of World War II, we have experienced our greatest peacetime inflation. Through all of the 1930's unemployment was a serious problem. In the 1920's we did have a fairly long period of high-level employment and price stability, but many groups, including farmers, were dissatisfied.

Many economists now doubt that it is possible to have continuous full employment without inflation. Their doubts are increased as major labor groups are permitted to organize for collective bargaining, and as some agricultural producers are granted price supports at levels considerably above market prices.

Many leaders in agriculture, labor and government recognize the difficulties to be met in advancing toward our economic goals. We will progress faster toward these goals if we do not ask and expect the impossible from any administration.

'PLANTING' TAX SAVINGS

by Robert Schweitzer

The "seeds" supplied in this article are of the tax saving variety and should not be confused with tax evasion. Tax evasion is unlawful; however, taxpayers are not to pay more nor are they to pay less than the laws and regulations demand. Therefore, tax savings are permitted while tax evasions are "outlaw" practices. To properly interpret the laws and regulations is a most difficult task. Congress, after months of hearings and investigations by committees and sub-committees writes the laws. The Bureau of Internal Revenue interprets these laws and administers them. In interpreting and administering individual personalities come into play. At times the Bureau's interpretations are changed by the courts, including the United States Supreme Court. Thus, a very complex, technical, and intricate tax structure is created.

Here is a guide to Tax Savings:

1. Keep farm income and expenses on an even keel. A high tax bracket one year and a correspondingly low tax bracket the following or preceding year may be caused by:

a. Selling two years' crops in one year, or

b. Paying expenses of one year in the next year.

The selling of two years crops in one year might be avoided if a commodity loan from the Commodity Credit Corporation can be secured. However, an election must be made to report these loans as income in the year the loan is repaid.

The holding over of expenses of one year to the next year can be avoided by prompt payment at the year-end, and if necessary a loan might be obtained from a banker.

Obviously, the shifting of selling or paying or both will affect income and income taxes to be paid.

2. Watch holding period of Farm Capital Assets. If a Farm Capital Asset has

been held for more than six months, any gain on the sale is reportable at 50%, but if there is a loss, such loss is deductible in full and not subject to a limitation of \$1,000 per year.

For example:

A piece of farm machinery purchased January 1st at \$2,000.00.

a. Sold August 1st at \$2,500.00.

b. Sold August 1st at \$1,500.00.

In (a) the gain of \$500 would be reported as \$250 only, but in (b) the loss of \$500 would be deductible in full.

For purposes of the above illustration, depreciation has been disregarded.

3. Taxes on Farm Capital Assets.

State and local sales and excise taxes levied on the consumer and paid on acquisition of Farm Capital Assets may be charged to expense in the year of purchase, and not capitalized and depreciated over the life of the asset. Such expense is deducted under taxes Page 3 Form 1040F.

4. Sale of draft, breeding and dairy animals. The same rule

applies as in No. 2 above except that the holding period is twelve months or more instead of six months or more.

5. Abandonment. All abandoned assets should be sold for junk and an invoice issued.

Of course, there are economic factors which might nullify the "harvest" to be gained from cultivating the above "seeds." However, it is good business to consider what effect on income tax a given transaction may have.

Christmas Seals Being Mailed to Will County Homes

With the Christmas Seal Sale scheduled to open throughout the nation next week on Nov. 17, the Will County Tuberculosis Association speeded up its own preparations to urge every resident of Will County to buy and use Christmas Seals to support its work for tuberculosis prevention and control in this area.

Teachers in the schools are using the bookmarks for book week which is being observed the week of November 16 to 22.

Window displays featuring the glowing candle and Double-Barred Cross which appear on this year's Christmas Seal have been set up.

"The cooperation of volunteers, public officials and businessmen in preparing for the 1952 Christmas Seal Sale is one more example of the public spirit Will County residents always show in their support of campaigns for the health and welfare of the community," Vance said.

"The people of this community know the value of the tuberculosis association's work. They

know that the Christmas Seal Sale supports education, rehabilitation and case-finding activities.

"I am confident that, when the people of this community receive their Christmas Seals in the mail their response will be prompt and generous," he concluded.

Tips on Touring

By Carol Lane

Women's Travel Authority

When a man goes on a business trip, it's the obvious necessities he most frequently forgets—like his razor or toothbrush.

The breadwinner is usually up to his ears in arranging last minute office details and checking up on his car. So the little woman can again prove herself indispensable by preparing his suitcase.

Here's a checklist of masculine needs for the average three to five day business junket.

1—Keep a complete extra set of toilet articles in a small travel kit. Include razor, blades, after-shave lotion and talc, styptic pencil, hairbrush, comb, hair-lotion, deodorant, aspirin, band-aids, nail file, small scissors; toothbrush and paste.

2—His clothing needs will include a change-a-day of socks, handkerchiefs, ties, underwear and shirts (if he wears nylon shirts, two are enough), one pair shoes, 2 suits; pajamas, slippers, bathrobe; suspenders and/or belt; clothesbrush, sewing kit. (One wife I know also adds a snag-proof zipper slider—a new invention which clips onto a jammed track and fixes it.)

3—Place a checklist in the suitcase so hubby can see at a glance what he's forgetting to bring back.

Chances are the businessman's social life away from home will be a big zero. A good mystery book, a portable radio and deck of cards can ease the lonesomeness. And remind him of his thoughtful wife!

Laurel Camp 1796 RNA will meet at the home of Mrs. Walter Yunker, Thursday evening, November 20 at 8:00 o'clock. Mrs. Jas. Gray and Mrs. Tom Ludwig will assist as hostesses. This meeting is one week earlier on account of Thanksgiving Day which falls on the regular scheduled date. All members are urged to attend.

Floyd Rauch, son of Mr. and Mrs. Harry Rauch, who was inducted into service and left for Ft. Sheridan, is now stationed at Ft. Riley, Kansas for his basic training. He met Virgil Butler in camp and was so happy to meet some one from his home town.

Mrs. Elsie Zerbs entertained her bunco club, Tuesday afternoon.

Mrs. Arthur Beagley, who underwent surgery November 4,

returned home last Monday and is convalescing nicely.

Mrs. Clifford Horn arrived home last Wednesday after having had double surgery and being a patient in the hospital for the past several weeks. She is doing nicely.

The barber shop in the George Yunker building which has been closed for some time, will be opened for business this Monday. Mr. J. O'Brien from Evanston has been engaged as the barber.

Wm. Ashum had his car parked on West Ave. and 143rd St. last Thursday evening while attending the open house which the PTA was sponsoring, in the school gym. When he was ready to go home, he noticed that all of the hub caps had been removed from his car. While car owners cannot lock their hub caps, they can see that they have the car locked, while they have it parked, as one never knows what to expect especially when there is entertainment of some kind taking place. In such cases, it is better to lock the "barn" before the horse is stolen.

Mrs. Florence McWhorter was interviewed on station WGN Saturday morning in regard to a club of 18 girls, ages 6-15 on Saturday afternoons in her home for the purpose of making creative things out of some thing inexpensive.

Although the children come from homes of adequate incomes, it helps teach them to work with their hands, to paint which they prefer rather than sewing. They make such things as trays made from the tops of paint drums which they put a design on and paint and decorate. They have made necklaces from the cups of acorns which they spot with gold and thread on painted string; also bracelets to match. They have taken bits of yarn and made flowers for coats, and many gifts which they are making now for Christmas.

After each meeting they have refreshments. Each girl takes her turn as hostess serving after the meetings. These little get-togethers make Mrs. McWhorter happy as each one of the girls look forward to each meeting.

Guest of the Wm. Lockwoods Sunday were Mr. and Mrs. Wm. Anderson of Chicago and A-2c Roy Womack and wife of Cheyenne, Wyoming.

Mr. and Mrs. Robert Stadt and son David spent Sunday in Naperville.

Cars will leave the Calvary Baptist church Sunday at 1:30 for a pantry shower for the Friedheim home for Aged in Chicago. Everyone is welcome to go.

The Calvary Baptist church has planned a turkey dinner Friday evening at 7 o'clock. Everyone is welcome. A program will also be presented.

Mr. and Mrs. Jack Miller and children Barbara, Scott, John and Marcia were guests of Mr. and Mrs. Robert Wheeler Sunday. Mr. and Mrs. Thomas Jackson were guests Sunday evening.

Mr. and Mrs. R. Urbano and family were dinner guests of Mr. and Mrs. P. Glacir of Evergreen Park Sunday.

Mr. and Mrs. Albert Swatek Sr. attended the wedding of Miss Perol Coons to Dean Reynolds at the St. John's Methodist church in Wenona, Ill. Sunday. Miss Joyce Swatek their daughter, was a bridesmaid.

Mr. and Mrs. J. A. Dixon were guests of Mr. and Mrs. J. Wallis of Holbrook Sunday evening.

CHRISTIAN SCIENCE CHURCHES

Gratitude, based on an understanding of the true nature and character of God-infinite good, who gives bounteously and unstintingly to all ready to receive His blessings, will be explained in all Churches of Christ Scientist, on Thursday, November 27. The title of the Lesson-Sermon will be THANKSGIVING.

The Golden Text is from Psalms (96:1) "O sing unto the Lord, a new song: sing unto the Lord, all the earth"

Lesson-Sermon passages from the Bible (King James Version) include the following:

"Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in the heaven and in the earth is thine: thine is the kingdom, O Lord, and thou art exalted as head above all."

Now therefore, our God, we thank thee, and praise thy glorious name! (1 Chron. 29:11, 13).

Selections from "Science and Health with Key to Scriptures" by Mary Baker Eddy, include: "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more. Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than speech. If Mind was first chronologically, is first potentially, and must be first eternally, then give to Mind the glory, honor, dominion, and power everlastingly due its holy name" (pp.3, 143).
